This plan provides Prescription Drug benefits for Prescription Drugs and Related Supplies provided by Participating Pharmacies. To receive Prescription Drug Benefits, you and your Dependents may be required to pay a portion of the Covered Expenses for Prescription Drugs and Related Supplies for each 34 day supply at a retail pharmacy or each 90-day supply at a retail or mail order pharmacy. That portion is the Copayment or Coinsurance.

Coinsurance: The term Coinsurance means the *percentage* (for example, 25%) of charges for covered Prescription Drugs and Related Supplies that you or your Dependent are required to pay under this plan.

Copayment: Is the *fixed dollar amounts* (for example, \$15) you pay for covered prescriptions drugs and Related Supplies that you or your Dependent are required to pay under this plan, regardless of the actual cost of the prescription.

Terms to Know:

Formulary - a list of Food and Drug Administration (FDA) approved prescription drugs (generic and brand-name) and drug supplies. Over-the-counter, injectable medications and drug supplies are not included in this formulary unless they are specifically listed. The formulary is subject to periodic review and modifications.

Retail – any licensed pharmacy that you can physically enter to obtain a prescription.

Mail Order – mail order pharmacies that dispense prescription drugs through the U.S. Mail.

Mandatory Generic: if you use a brand-name drug when a generic is available, you pay the applicable copay plus the cost difference between the brand drug and the generic drug.

Types of Drugs:

Generic – drugs that contain the same active ingredients as a brand-name drug and become available when the patent protection expires on the brand-name drug and is approved by the FDA.

Preferred/Formulary Brand Name - a brand-name drug on the plan's formulary. Using this drug is less expensive than using a non-preferred/non-formulary drug.

Non-preferred/Non-formulary Brand Name – a drug that is not on the plan's formulary list. You will pay more even if your doctor recommends it.

Specialty – a drug used to treat serious or chronic medical conditions such as multiple sclerosis, hemophilia, hepatitis and rheumatoid arthritis. It is typically a self-administered injectable medication often requiring special handling or refrigeration.

Coverage Period: 01/01/2015 – 12/31/2015
Coverage for: Individual and/or Family

Your Rights to Continue Coverage:

If you lose coverage under the plan, then, depending upon the circumstances, Federal and State laws may provide protections that allow you to keep health coverage. Any such rights may be limited in duration and will require you to pay a **premium**, which may be significantly higher than the premium you pay while covered under the plan. Other limitations on your rights to continue coverage may also apply.

For more information on your rights to continue coverage, contact your Human Resources Benefits Department. You may also contact your state insurance department at **1-877-693-5236**, the U.S. Department of Labor, Employee Benefits Security Administration at 1-866-444-3272 or www.dol.gov/ebsa, or the U.S. Department of Health and Human Services at 1-877-267-2323 x61565 or www.cciio.cms.gov.

Your Grievance and Appeals Rights:

For more information on your rights to a **grievance** or **appeal**, contact your Human Resources Benefits Department. You may also contact the Department of Labor's Employee Benefits Security Administration at 1-866-444-EBSA (3272) or www.dol.gov/ebsa/healthreform, state insurance department at 1-877-693-5236.

For non-federal governmental group health plans and church plans that are group health plans contact your employee services department. You may also contact the state insurance department at 1-877-693-5236.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Having a baby (normal delivery)

What are some of the assumptions behind the Coverage Examples?

Costs don't include **premiums**.

Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.

- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from **in-network providers**. If the patient had received care from **out-of-network providers**, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **copayments**, and **coinsurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples.

The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are not cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium you pay. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
