Pharmacy Benefit Highlights

- Medications are categorized into 5 tiers and impact your out-of-pocket costs; the 5 tiers are outlined below.
- **\$100 per member pharmacy (Rx) benefit year deductible** must be satisfied for Rx Tiers 2-5, with a family cap of \$400.
 - Tier 1 medications do not apply toward Rx benefit year deductible.
 - Member pays the first \$100 for medications in Tiers 2-5, then coinsurance benefits apply.
 - Rx deductible does not apply to medical deductible, but counts towards medical maximum out-of-pocket.
- Member pays the brand copay plus the difference in cost between the brand and generic if brand product is chosen when a generic equivalent is available.
- There is a **mandatory 90-day supply at either retail or mail order for Tier 1 or 2 maintenance medications** following a maximum of two 30-day fills at retail. Controlled drugs including, but not limited to, medications used to treat anxiety, sleep, pain, and hyperactivity disorders are **EXCLUDED** from the mandatory 90-day Rx rule.

How to Look Up the Tier of a Specific Medication

- Step 1. Visit the [GatorCare Formulary Lookup Tool](#).
- Step 2. After navigating to this page, enter the name of the drug on the left hand side.
- Step 3. After several seconds, possible matches appear on the right side of the screen. The tier to which the drug is offered through GatorCare is found along with other alternative drugs and information.
- Step 4. By clicking on the 'find alternative drugs' link, a member can determine if an alternative medication for the drug may be available on a lower tier, reducing the member's out-of-pocket expenses.
